## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 5,894,473 to Dent in view of U.S. Patent No. 5,991,308 to Fuhrmann et al.

As per claims 1 and 8, Dent discloses a scrambling code ..... (col. 7, lines 4-10).

Dent does not disclose the remaining limitations of these claims. Fuhrmann et al., however, does disclose the remaining limitations of these claims (col. 24, lines 23-35). It would have been obvious to anyone having an ordinary level of skill in the art at the time the invention was made to have modified the invention of Dent to include the elements found in Fuhrmann et al. since these elements found in combination constitute the very essence of typical systems as this.

### *Allowable Subject Matter*

Claims 18-47 are allowed.

Claims 2-7, 9-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
